412 responses

- 4 –Strongly agree
- 3 – Agree
- 2 – Neutral
- 1 – Disagree
- 0 – Strongly disagree

15.5%

79.4%
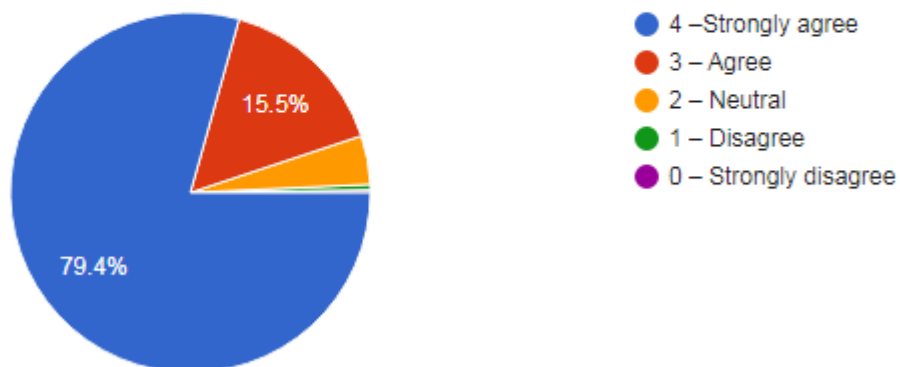

CONCLUSION

SSS provides insight into the college's strengths and the areas that need to be prioritized for improving the academic system. The survey evaluates the teaching and learning processes, communication efficacy, availability of learning resources, mentoring process already in place on campus, and the methods used for assessment. The students are expressing satisfaction with the educational strategies and techniques used by the teachers. They are expressing contentment with the fairness of the evaluation processes as well. However, the study advises that we concentrate on issues like mentoring, ICT-enabled instruction, and the need for learning resources. The survey report recommends that the College Council and related bodies take appropriate steps to address the students' grievances.
